

Wearing Jewel Awards

As Nobles work in and around the India Shrine Center they earn service points for various activities, events, sales, etc. The following jewels are designed as a way to proudly display these service points and are a great accessory for public display like during parades.

Wearing Jewel Awards

Jewel of India - Example

If a Noble has 1,150 points then they should be wearing only parts of the Jewel of India jewel. In this example, the jewel should consist of the Basic Jewel with Multi-Colored Ribbon (attained at 500 points) + Large Red Arc (attained at 750 points) + Small Yellow Arc (attained at 1,000 points). Though this combination only shows the Noble to have 1,000 points, this is all the Noble is allowed to wear at this time because he has not yet attained the next award level at 1,500 points.

Potentate's Jewel - Example #1

If a Noble has 4,350 points then they should be wearing the Star of India jewel around their neck PLUS the Potentate's Jewel on their garment. Because a Ruby Bar has not yet been earned, you would calculate the point total from the Potentate's Jewel. This Noble should be wearing the Basic Jewel (2,000 points) + 2 Yellow Bars (1,000 points each) which would represent 4,000 points.

Note: Point totals are calculated from the Basic Jewel until the first Ruby Bar is earned.

Potentate's Jewel - Example #2

If a Noble has 7,150 points then they should be wearing the Star of India jewel around their neck PLUS the Potentate's Jewel on their garment. Because a Ruby Bar has now been earned, you would calculate the point total from the Ruby Bar. This Noble should be wearing the Basic Jewel (not counted in point total) + 1 Ruby Bar (5,000 points) + 2 Yellow Bars (1,000 points each) representing 7,000 points.

Note: Point totals are calculated from the first Ruby Bar until a Diamond Bar is earned. Thereafter the Ruby Bar is only used to represent 5,000 points in calculating point totals.

Potentate's Jewel - Example #3

If a Noble has 27,250 points then they should be wearing the Star of India jewel around their neck PLUS the Potentate's Jewel on their garment. Because a Diamond Bar has now been earned, you would calculate the point total from the Diamond Bar. This Noble should be wearing the Basic Jewel (not counted in point total) + 2 Diamond Bars (10,000 points each) + 1 Ruby Bar (5,000 points) + 2 Yellow Bars (1,000 points each) thus representing 27,000 points.

Note: Point totals are always calculated from the first Diamond Bar once it is earned. Remember, once a Diamond Bar is earned the Ruby Bar only represents 5,000 points in calculating point totals. Also, any extra Ruby or Yellow Bars not needed to show the Noble's current point total are not used but should be saved for spares in the future.
